Social Behavior
UC Irvine

The Social Effects of Wealth

ABSTRACT

How does your money shape your mind, how you think about yourself and behave toward others? This talk will highlight the emerging psychological science of social class. I will report studies showing that social class exerts a pervasive influence on the social realm, critically shaping the self-concept, emotion, morality, and goals.

FRIDAY, MAY 5, 2017 | 12:15-1:30pm | CORNELL HALL - D310

Free and open to the public.
