

UCLA Housing, Neighborhood and Health Series

A joint endeavor presented by the [UCLA Ziman Center for Real Estate's Housing as Health Care Initiative](#), the [UCLA Center for Neighborhood Knowledge](#), the [UCLA Center for Health Policy Research](#) and the [UCLA Center for Occupational and Environmental Health](#)

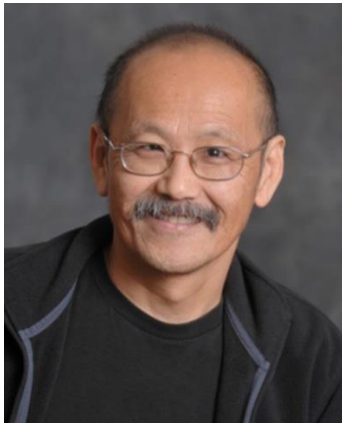

"Beyond Zip Codes: Unpacking the Place-Health Nexus"

presented by Paul Ong, PhD
Research Professor and Director
UCLA Center for Neighborhood Knowledge

Thursday, November 29, 2018

12:30 p.m. - 1:30 p.m.

Room 2343, Public Affairs Building
UCLA Luskin School of Public Affairs

Place matters, as captured by the statement that asserts that a person's zip code is a better predictor of health status than the person's DNA. Social determinants of health are intertwined with the urban spatial structure, residential patterns and the geography of opportunities. This talk explores underlying causal paths that link place characteristics, location accessibility and transportation resources to health outcomes and systematic disparities.
